

# STB SUPER SEAL

## Clear Sealer And Protector

**Anglo-Net STB Super Seal** is a clear polyurethane sealer and protector for walls and floors of all types, internal as well as external.

**Super Seal** is excellent for preventing dusting on old floors, as the first coat will soak into concrete binding it together giving it added strength. The second coat will give a glossy hard - wearing finish.

**Super Seal** is also used for coating **STB Grippa** making it easier to clean and protect against grease and oil attack.

- **Supplied Ready To Use.**
- Apply By Brush Or Roller.
  - **Moisture Curing.**
- Low Odour, Easy To Use.
- **Excellent Weather Resistance.**
- Improve Frost Resistance Of Concrete.

### Typical Applications

Warehouse floors, shops, restaurants, colleges, farms, garages, office buildings, porous surfaces.
